Summary

I'm a passionate UI/UX designer who loves creating easy-to-use and beautiful digital experiences. I'm good at sketching out ideas, building interactive prototypes, and making things look great. I also know how to understand what users need and test if my designs actually work.

Skills

HTML CSS Wireframing

Prototype Adobe Illustrator

User Flow Interaction design

Adobe Photoshop Figma

TGC (Total Graphics Class), New Delhi**

UI/UX design Course (2025)

Academic Projects

Html /Css

Legal.so landing page

Designed and developed a responsive, user-friendly landing page for Legal.so, a platform connecting individuals with qualified attorneys.

- Implemented a search functionality to allow users to find attorneys based on specialization and area of expertise.
- Created detailed attorney profiles to improve user navigation and enhance the overall user experience (UX).
- Built the landing page using HTML and CSS, ensuring a seamless, mobile-responsive design.

UI/UX Designer

Ripple App design

Designed and developed Ripple, a chat app that enables seamless communication and easy social interaction.

- Created wireframes and high-fidelity prototypes to showcase key features, including one-on-one messaging, group chats, and file sharing.
- Designed an intuitive, accessible user interface (UI) focused on smooth navigation and efficient communication flow.

UI/UX Designer

TaskHive App design

Designed and developed TaskHive, an intuitive task management app focused on deadline setting, task creation, and progress tracking.

- Created low-fidelity wireframes and high-fidelity interactive prototypes to showcase task creation, editing, and prioritization features.
- Developed a user-friendly interface (UI) to improve navigation, enhance usability, and boost productivity.
